

MIA

MIA STOOL, SIDE TABLE AND COFFEE TABLE DESIGN BY SBW

A clean and balanced design coupled with visual lightness, the MIA can be adaptable to an array of environments - residential, commercial or hospitality. An array of powder coat colours and table top finishes are available for individual customisation. Take a look at the deceptively simple weld points on the Mia – their intricacy and the degree of difficulty in accomplishing those, will impress. The Mia family of product also includes a stool, side table and coffee table. The coffee table can transform into an ottoman with the addition of an upholstered top.
